

I set up Xiaomi Mijia V1 (MJ_HT_V1) & V3 (LYWSD03) and the battery is correctly read (100% in this example) but 255 is sent to Domoticz (via MQTT or HTTP) (please note that "Add Battery value for non-Domoticz system" doesn't change the issue) :

Domoticz log :

Cloud-level Log

```
2020-02-20 17:39:43.459 MQTT: Topic: domoticz/in, Message: { "idx": XX, "nvalue": 0.00, "svalue": "20.8;44.5;100.0",  
"RSSI": 10, "Battery": 255 }
```

RPIEasy log :

Device-level Log

```
17:39:43 Event: MijiaV1#Temperature=20.8  
17:39:43 Event: MijiaV1#Humidity=44.5  
17:39:43 Event: MijiaV1#Battery=100.0
```
